Benefit Topic	Special Processing Instructions
<b>Pre-determination Clause</b>	<p>1. Group guidelines mandate that all treatment over \$1,000.00 must be pre-determined (excluding RCT's, apicos &amp; extractions). There is a once in a lifetime waiver given (per family) for any claim which has not been pre-determined prior to treatment being rendered. All areas (general, perio, ortho &amp; implant) are allowed a 1/L waiver per family. PLEASE NOTE: IF THE SUBMITTED CLAIM IS FROM A PARTICIPATING PROVIDER PLEASE USE FUND'S FEE SCHEDULE NOT THE PROVIDERS UCR WHEN DETERMINING OVER \$1000.</p> <p>2. If a claim is submitted over \$1,000 and is not pre-determined, the Fund has the right to issue a \$250 penalty to the member or provider if the work is deemed clinically necessary. The Fund will reserve the right to waive the penalty to a par provider. If this occurs please contact Fund Administrator (x 319) or Fund claims supervisor (x314).</p> <p>3. Pre-determinations are valid from the date issued through the end of the year in which the 12th month occurs. (i.e. issued 1/1/15 expires 12/31/16)</p> <p>4. If documentation received with claim &amp; no pre-determination has been obtained for any surgical, periodontal, implant related or orthodontic services, please do a clinical review for need in case appeal is forthcoming. If claim was not reviewed because docs were not presented, please request a clinical review if provider requests 2nd review or patient/member requests an appeal.</p>
<b>Coordination of Benefits</b>	<p>1. Verbal contact should be made with the dependent's primary carrier to see if the provider participates with them or if additional information is necessary.</p> <p>2. If primary carrier requires a specific provider be used &amp; patient opts not to utilize provider under primary, claims must be denied as the patient selected their own provider instead of utilizing a specific provider. Denial should read "NO BENEFIT: PRIMARY CARRIER VOLUNTARILY NOT USED"</p> <p>3. If primary is a capitation plan we do not pay, only if there is a co-pay that is noted on an EOB or schedule with the patients' name, plan type &amp; fee schedule.</p> <p>4. If primary insurance has approved treatment being submitted, the Fund still must make its own clinical determination.</p> <p>5. If a pre-d/claim is submitted and denies for frequency but benefits were never released because the primary paid in full, this claim is eligible for payment; clinical approval as well is necessary for some procedures.</p> <p>6. Allow up to full fee schedule when there is primary insurance &amp; the provider is non-participating with the Fund and the primary insurance plan. NOTE: Please make sure non-provider is not paid more than primary insurance allows their dental plan to charge if participating with primary.</p>
<b>COB for Dual Members</b>	<p>1. Second BF number will always get paid if clinically approved &amp; benefits are available &amp; do not exceed fee schedule.</p> <p>2. Dual member COB w/non par providers: member and dependents are eligible for benefits under both BF numbers up to the full fee schedule for all covered procedures (not to exceed fee charged) as long as benefits remain. Full ortho benefits are payable under both BF numbers.</p> <p>3. Dual member COB w/par providers: provider will only receive benefits under the primary BF number as long as the treatment has been paid in full according to our fee schedule. If the treatment has not been paid in full, whatever amount is outstanding will be paid under the secondary, as long as benefits remain &amp; do not exceed fee schedule.</p> <p>4. Dual member COB w/implants: For any implant related service, dual members can receive up to the fee schedule under both BF numbers, not to exceed amount charged, if benefits are available. Par providers can charge their UCR for any implant related procedures; the member and/or the dependents WILL have an out of pocket.</p> <p>5. Dual member COB w/ortho: Participating orthodontists: The Fund will release up to the ortho max of \$1995 under the primary BF number for any approved ortho treatment; under the secondary BF number, the required \$50 co-pay for the 1st through the 20th active treatment will be released to the participating provider. If patient needs more than 24 active the agreed upon \$100 per month will be paid from the secondary BF number utilizing the members benefits, as well as any passive/retention visit; at \$25 per visit. Non-par orthodontists: The Fund will release up to the maximum for each procedure code and up to the lifetime maximum under each BF number. We will never exceed the amount charged by the non-par provider for procedures (example - charge for active treatment is \$125 per visit; we pay \$75 under primary and \$50 under secondary).</p>
<b>Retirees &amp; Annual Max &amp; Pre-D</b>	<p>1. A member that retires during the middle of any given year can collect the entire retiree annual max (\$500-750) as long as they have not reached the entire active annual maximum already during that year (\$2750). Benefit never to exceed \$2,750 per calendar year.</p> <p>2. Retirees must pre-determine any surgical periodontal, implant related and orthodontic services.</p>
<b>Eligibility</b>	Currently SCMEBF requires Spring of current year to cover from 1/1/xx through 9/30/xx and Fall of current year to cover from 9/1/xx through 1/31/xx. All student verification must be sent to the Fund's eligibility department.
<b>Refund Letters</b>	Refund letters & documents are forwarded to SCMEBF who sends out the letters and follows up with members. ASO does not have to follow up.
<b>Dental Plan Processing</b>	<p>1. The Fund allows a 15 day "internal" grace period for claims that deny due to frequency. If a claim denies when processed, check last dos and allow if benefits remain (without request from member or provider).</p> <p>2. CDT code 9310 is only payable when that provider is not going to do any further work for the next 12 months; they must state on claim form "no further work to be done". If within 12 months work is done by this provider the \$35 must be deducted from any work being provided.</p> <p>3. If a claim is submitted for a procedure that will deny due to frequency, but the last time it was submitted the Fund/ASO never released any benefits, it is now payable. If it needs clinical approval, that must be done.</p> <p>4. No age limitations on procedures (prosthetics, perio, implants).</p> <p>5. No notarized narrative statement from provider is necessary when they are submitting a corrected claim form for filing with erroneous dates</p> <p>6. Timely processing of claims required; payable until 12/31/XX of following year of service date. If par provider submits a claim which denies due to late filing no harm to member/patient or Fund.</p> <p>7. Anesthesia to be paid even if Fund does not cover procedures provided.</p> <p>8. As per BOT action dated 1/28/10; multiple abutting (splinting of periodontically involved teeth) will be allowed if in the professional opinion of consultants the procedure is clinically indicated.</p> <p>9. As of 4/1/09 (back dated), the congenital defect of extra teeth are now covered; as of 2/1/12, the congenital defect of missing teeth are now covered.</p> <p>10. Provisional crowns are only payable for the 6 anterior upper and lower teeth.</p> <p>11. End of year submission of claims; If envelope is postmarked or claim received electronically by 12/31/XX claim is payable.</p> <p>12. Diagnostic, Preventative &amp; Restorative services are not included in the mandatory pre-determination rule for services in excess of \$1,000.</p>
<b>Ortho Processing</b>	<p>13. Par-Provider can charge UCR for Implant related procedures; ex: 6010 - providers charge is \$1500 - primary insurance pays \$600 - the Fund can still release up to \$500 (only when Fund lifetime benefits remain).</p> <p>1. When a member utilizes a par orthodontist they will have at least a \$1000 out of pocket. They must pay \$50 per month for the first 20 active treatments; \$100 a month for any active beyond the 24th, (no payment due for 21st - 24th visits), and \$25 for any retention visit.</p> <p>2. Retainers are NOT covered as a separate procedure. "Basic" retainers are covered for the par orthodontist.</p> <p>Resin-based composite - 1 surface, posterior-permanent teeth only. Primary teeth will receive an alternate benefit of an amalgam.</p> <p>Resin-based composite - 2 surfaces, posterior-permanent teeth only. Primary teeth will receive an alternate benefit of an amalgam.</p>
<b>Frequency Denials</b>	Resin-based composite - 3 or more surfaces, posterior-permanent teeth only. Primary teeth will receive an alternate benefit of an amalgam.
<b>Specialist Fees</b>	Effective 7/1/13 specialists will be paid at specialist rate regardless of procedure (i.e. periodontist extracting teeth and vice versa). A pedodontist is allowed any specialty fee.
<b>Relationship (between member &amp; doctor)</b>	SCMEBF Guidelines state "do not pend claims for relationship to Provider, even if the provider treats an immediate family member.
